

# SAP Business One Product Update - FP 2508

SAP Business One Product Management, SAP

September 29, 2025

INTERNAL – SAP and Partners Only

# Legal disclaimer

The information in this presentation is confidential and proprietary to SAP and may not be disclosed without the permission of SAP. This presentation is not subject to your license agreement or any other service or subscription agreement with SAP. SAP has no obligation to pursue any course of business outlined in this document or any related presentation, or to develop or release any functionality mentioned therein. This document, or any related presentation, and SAP's strategy and possible future developments, products, and platforms, directions, and functionality are all subject to change and may be changed by SAP at any time for any reason without notice. The information in this document is not a commitment, promise, or legal obligation to deliver any material, code, or functionality. This document is provided without a warranty of any kind, either express or implied, including but not limited to the implied warranties of merchantability, fitness for a particular purpose, or noninfringement. This document is for informational purposes and may not be incorporated into a contract. SAP assumes no responsibility for errors or omissions in this document, except if such damages were caused by SAP's willful misconduct or gross negligence.

All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates, and they should not be relied upon in making purchasing decisions.

For all recent and planned innovations, potential data protection and privacy features include simplified deletion of personal data, reporting of personal data to an identified data subject, restricted access to personal data, masking of personal data, read access logging to special categories of personal data, change logging of personal data, and consent management mechanisms.

# Continual investment from SAP

- Web client delivery acceleration and innovation in 2025 & 2026 through additional investment
- Product continuity with new Version 11 in 2027
- Extension of version 10 support to December 2028
- Web Client apps ready for you to run your own businesses
- Upgrade to the latest SAP Business One releases and benefit from the new web client functions and security patches
- Adopt Artificial Intelligence through services from SAP and SAP partners

# SAP's best-selling ERP solution, by number of customers

**83,000+**  
customers

with **1.2+** million users

**500+**  
partner solutions

delivered by  
~**300** partners

**50**  
country localizations

and **28** languages per  
customer's choice

**7,000+**  
subsidiaries

running the product for  
**360+** large enterprises

**850+**  
partners worldwide

implementing and  
servicing customers

**170+**  
countries

with customers and  
partners

# SAP Business One: New Product Logo available at PartnerEdge

Stop using old product logo

# SAP Business One, Web client: The best of all worlds (as of FP 2508)

## Web client benefits

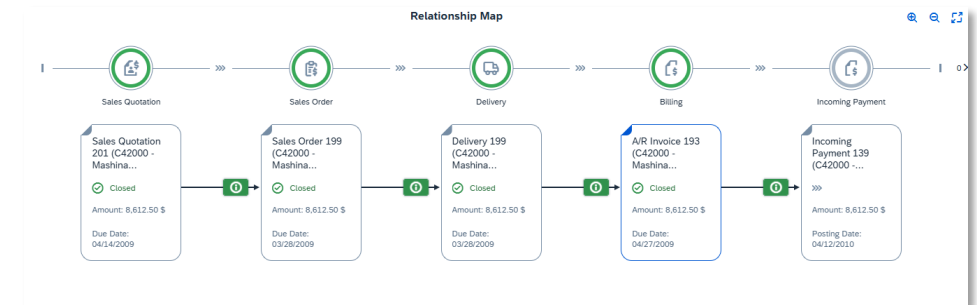

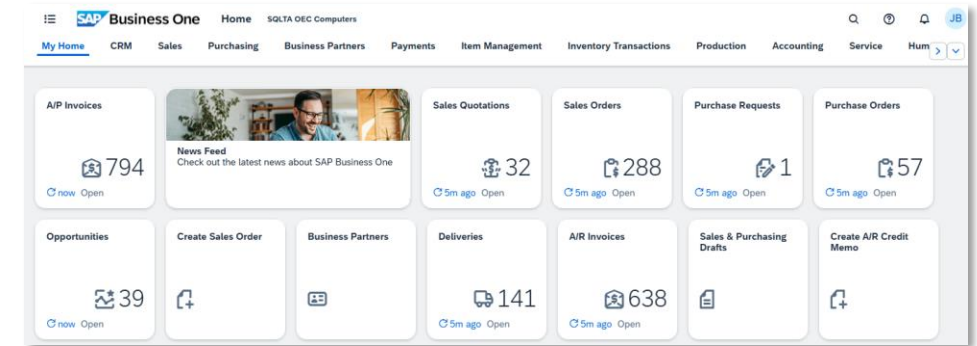

- Supports smooth working with SAP Business One using native web browser
- Offers the core business logic and processes in a new user experience based on the SAP Fiori design system
- Reads and writes from and to the same company database used with SAP Business One

## Business processes coverage

- Company configuration framework
- Sales and purchasing documents, including Blanket agreement, Recurring transactions and Down payments
- CRM, service, and timesheet
- Payments and Deposits
- Basic Finance (Chart of Accounts, Journal entries, Journal Vouchers, Posting templates, Recurring postings and Exchange rate table)
- Items and business partners master data
- Inventory transactions (Goods Issue/Receipt, Stock counting, Inventory transfer) and bill of material
- Document drafts and approval process
- Sophisticated analytics capabilities

## Integration and extensibility

- Microsoft 365 OneDrive export (Excel, Word)
- Collaboration using Microsoft Teams
- E-mail using Microsoft Outlook 365
- User defined Fields, Tables and Objects
- Web client user interface API (UI API)
- User-defined values: Arithmetic/logical formula and central management
- SAP Companion (web assistant) adoption

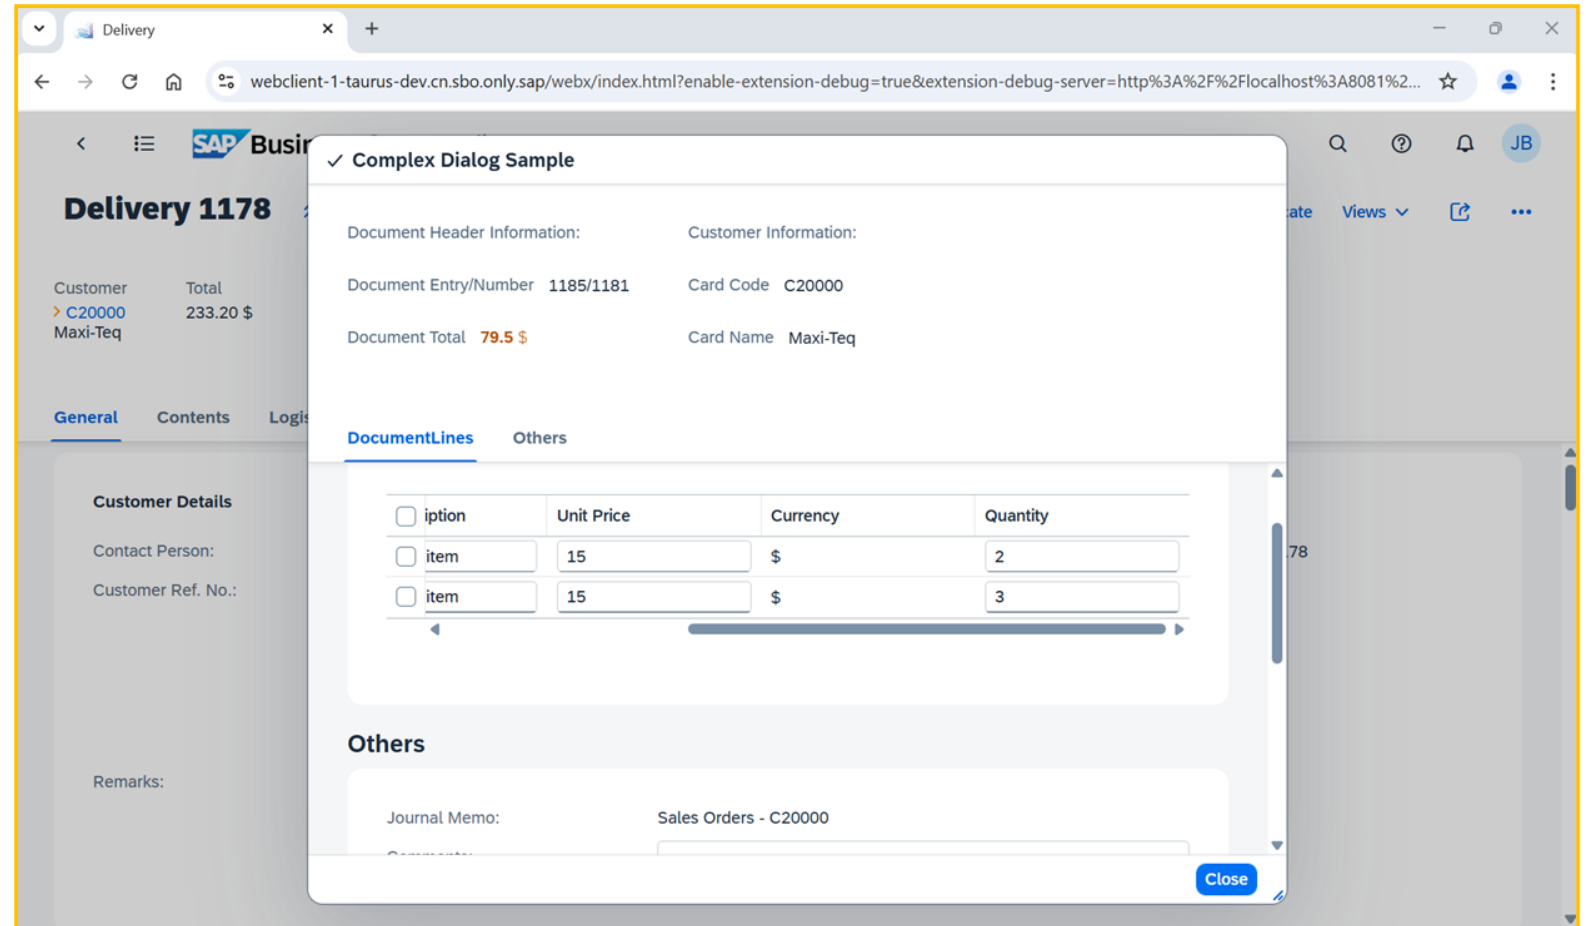

# SAP Business One, Web client: UI API framework (as of FP 2508)

## UI API framework

- Ability to customize web client views
- Support for UI controls:
  - Complex Dialog
  - Choose From List
- Support for events : Anchor , Refresh API
- Samples and online help

## Develop using VS Code IDE

- Create a project in VS Code
- Select the relevant views to extend
- Preview the relevant changes
- Debug
- Package and deploy using the extension manager
- Support additional views

# Artificial intelligence and automation

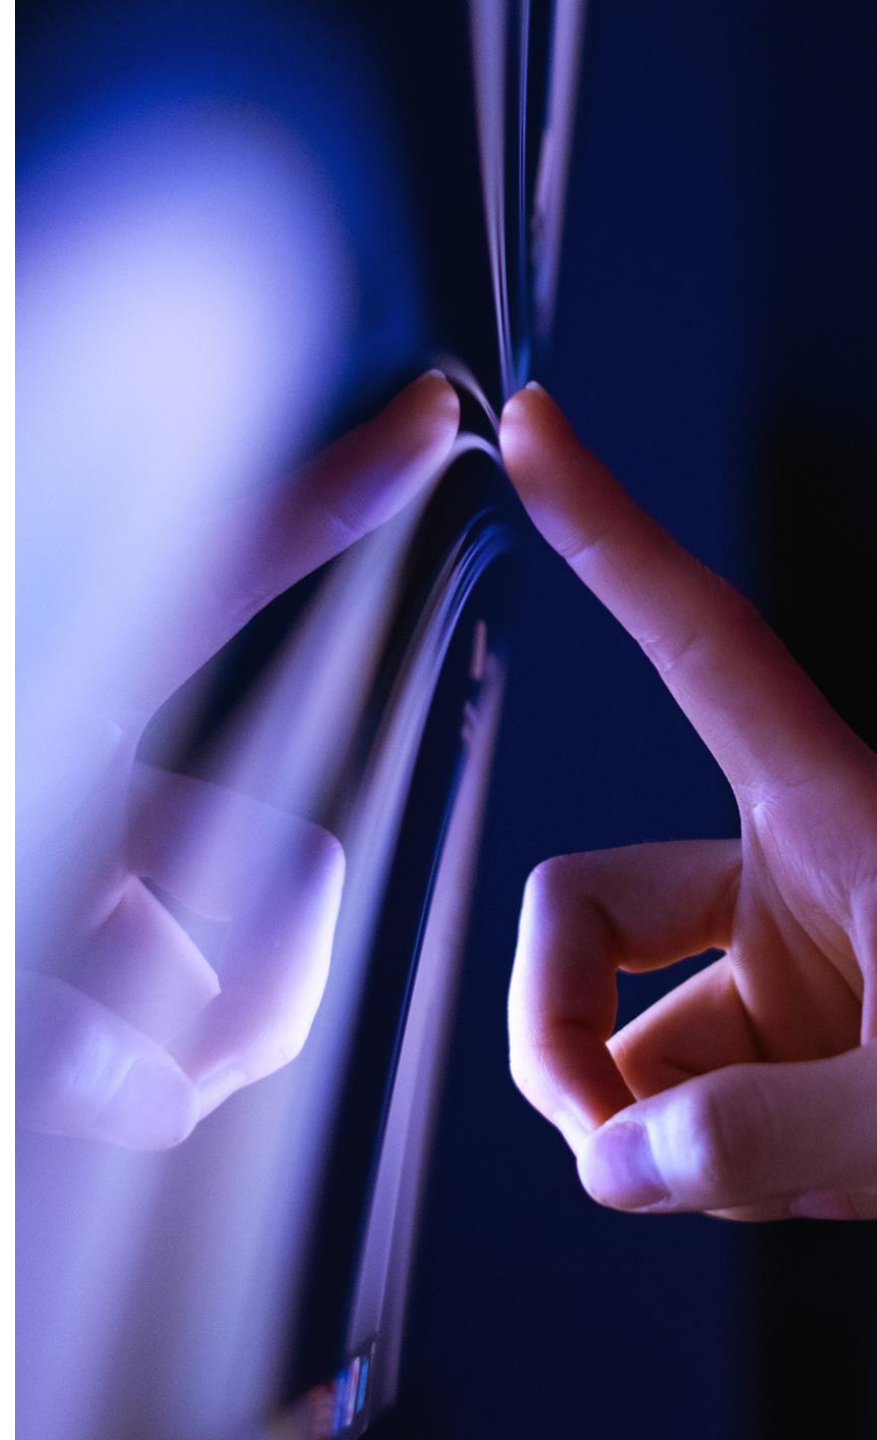

## Extensibility readiness for adoption of AI services

### Artificial intelligence: SAP AI services and tools

- **Document Information Extraction** service and available integration to SAP Business One— SAP AI service running on SAP BTP and leveraging machine learning to streamline processing of invoices from vendors
- **SAP Build Process Automation**—solution helping customers maintain their edge and free employees from repetitive and error-prone tasks (seven automation best-practice templates available to be used with SAP Business One)
- **AI Foundation on SAP Business Technology Platform** – a complete set of services for AI developers to build powerful AI-driven extensions and applications

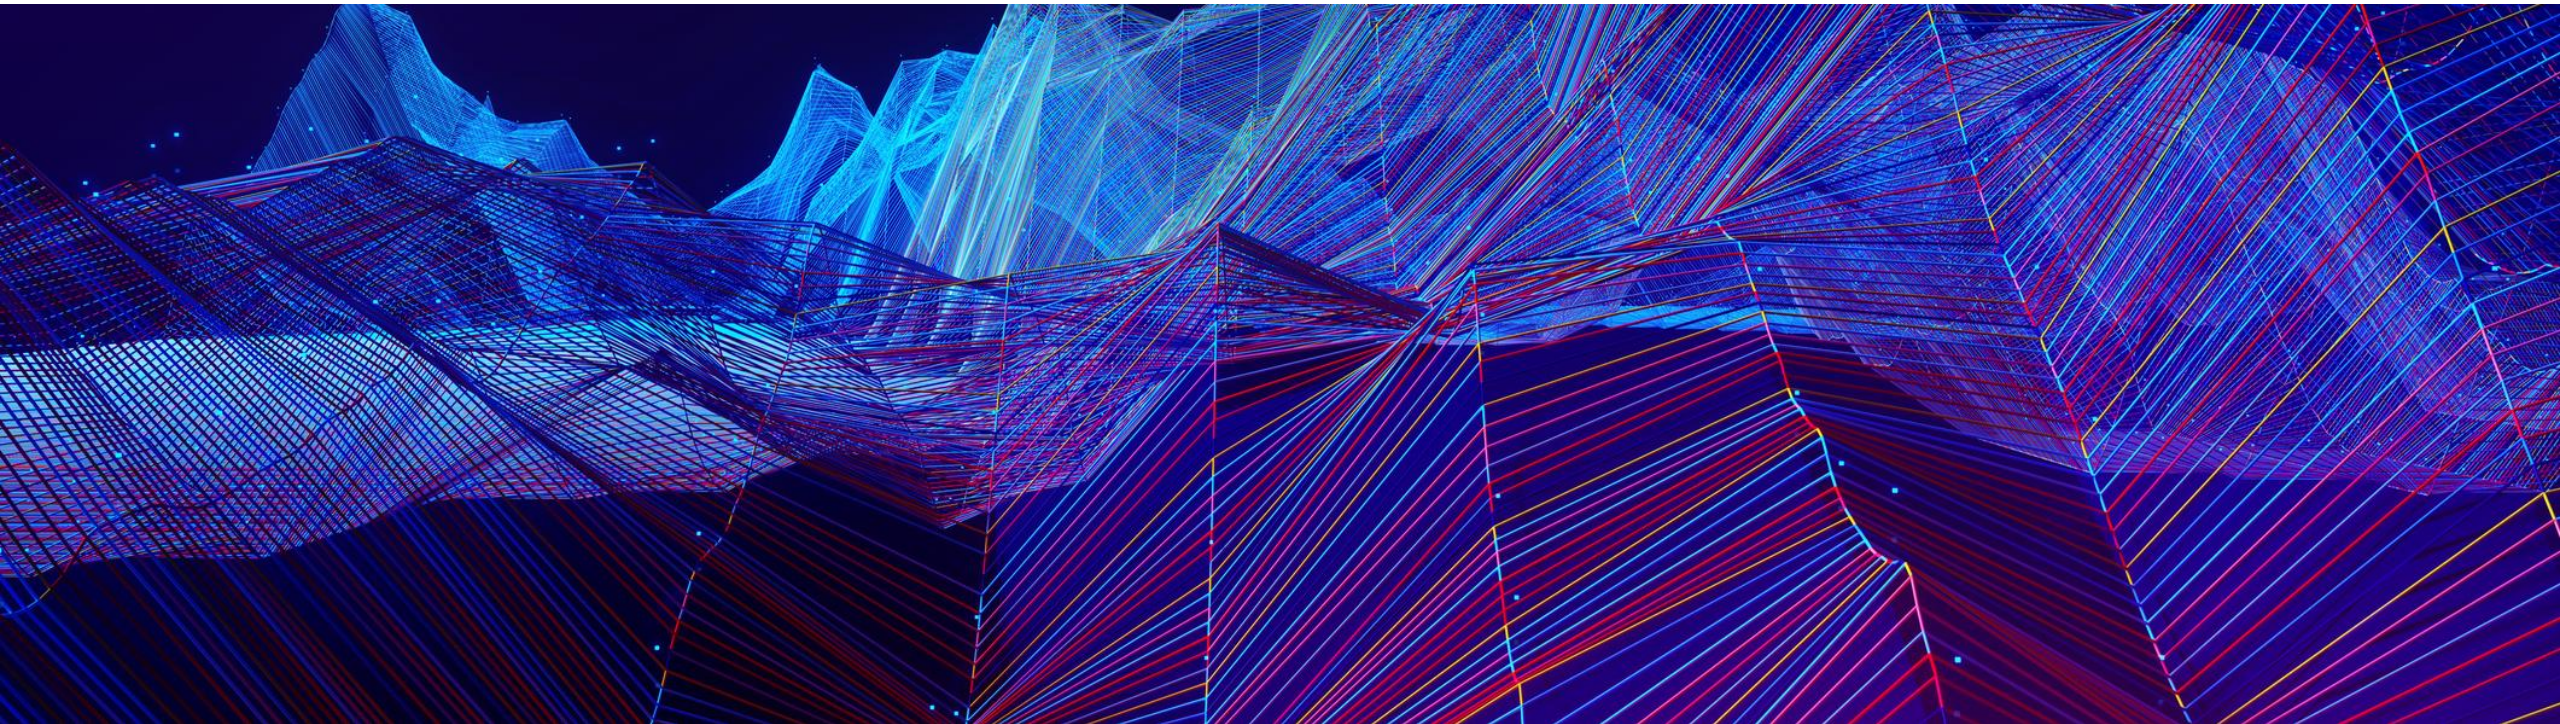

### Artificial intelligence: Solutions from SAP partners

- SAP Business One extensibility is ready for adoption of AI services—enabling partners to create and innovate with AI services and most recent AI agents, and develop own extensions and applications leveraging the latest generative AI technology
- Partners making use of SAP BTP tools for the solution development
- Giving each customer freedom of choice to choose the appropriate solution to meet that customer's needs

# Product Roadmap

# Product areas of future investment

**Product vision:** SAP Business One is SAP's leading ERP solution for small businesses and the lower midmarket, offering flexible deployment options including multitenant environment provisioned by SAP partners. It provides a globalized and robust business core while enabling cloud extensions through SAP Business Technology Platform and SAP Build solutions, all with a modern and intuitive user experience.

## Core ERP engine

- Offering a highly competitive solution with **intuitive and modern Web client interface**
- Data and system security at the first place
- Improving the product continuously reflecting key customer and partner feedback
- Localization enhancements and addressing legal requirements
- Regular maintenance within efficient model

## Partner co-innovations and extensions

- Further enablement for partner innovations through **SAP Build** and **SAP Business Technology Platform**
- Partners leveraging artificial intelligence technology and services to increase value for customers
- Improving robust developer experience on the Web client through the service layer, including new design concepts, APIs, objects, and tools

## Flexible deployment model with cloud focus

- Giving freedom to choose to deploy SAP Business One on premises (single-tenant) or scale to a multitenant environment provisioned by SAP partners
- Supporting partners in customer's cloud transformation by extending cloud tools managed by partners

## Helping ensure competitiveness

- Fast adoption of intuitive Web client design for new customer growth opportunities
- Transforming the latest innovations into customer value at lower TCO

# SAP Business One releases and related products

Long-term product road map with continuous innovation

Core and related products	Releases
<b>SAP Business One</b> (version for SAP HANA and MS SQL)	<ul style="list-style-type: none"><li>• Continuous enhancements through version 10 feature packages (FP) and support packages (SP)—SP 2511, FP 2602, SP 2605, FP 2608, SP 2611, FP 2702 ...</li><li>• Feature packages containing any type of change including innovation (such as Web client, integration, SAP BTP enablement, Customer Influence feedback, and more)</li><li>• Version 11 to follow version 10 in 2027</li></ul>
<b>Web client</b>	<ul style="list-style-type: none"><li>• Enhancements for working smoothly with SAP Business One using native web browser—accelerated delivery planned for 2025 and 2026</li></ul>
<b>Cloud</b>	<ul style="list-style-type: none"><li>• Continuous enhancements for SAP Business One Cloud, partner-hosted options, through update patches (PL22, ...)</li></ul>
<b>Mobile apps</b>	<ul style="list-style-type: none"><li>• Continuous enhancements for all mobile apps through apps' updates</li></ul>

The latest SAP Business One release planning details are always available in SAP Note [2267770](#).

This is the current state of planning and may be changed by SAP at any time.

INTERNAL – SAP and Partners Only

# SAP Business One, version 11

## Introduction of new generation of cloud management tools

### Lifecycle management

- **Optimize deployment and upgrades**
  - Simplified installation and update processes
  - Introducing automation and component in-place upgrades
  - Exploring the potential use of containerization technology to enhance deployment flexibility and scalability
- **Unification of system landscape directory (SLD)**
  - A single SLD developed for cloud and on premises
  - Deployment type selection allowed during installation

### Cloud operation center managed by partners

- **New generation of cloud control center**
- **Enhance identity and authentication**
  - Strengthening SSO, multifactor authentication, and modern authentication methods

### Cloud-native integration

- **Enablement of native cloud storage integration**
  - Smooth connectivity to SharePoint, Google Drive, OneDrive, and other cloud storage platforms

This is the current state of planning and may be changed by SAP at any time.

### Functionality

- Continuous Web client enhancements
- Item variants
- BOM versioning

### Artificial intelligence

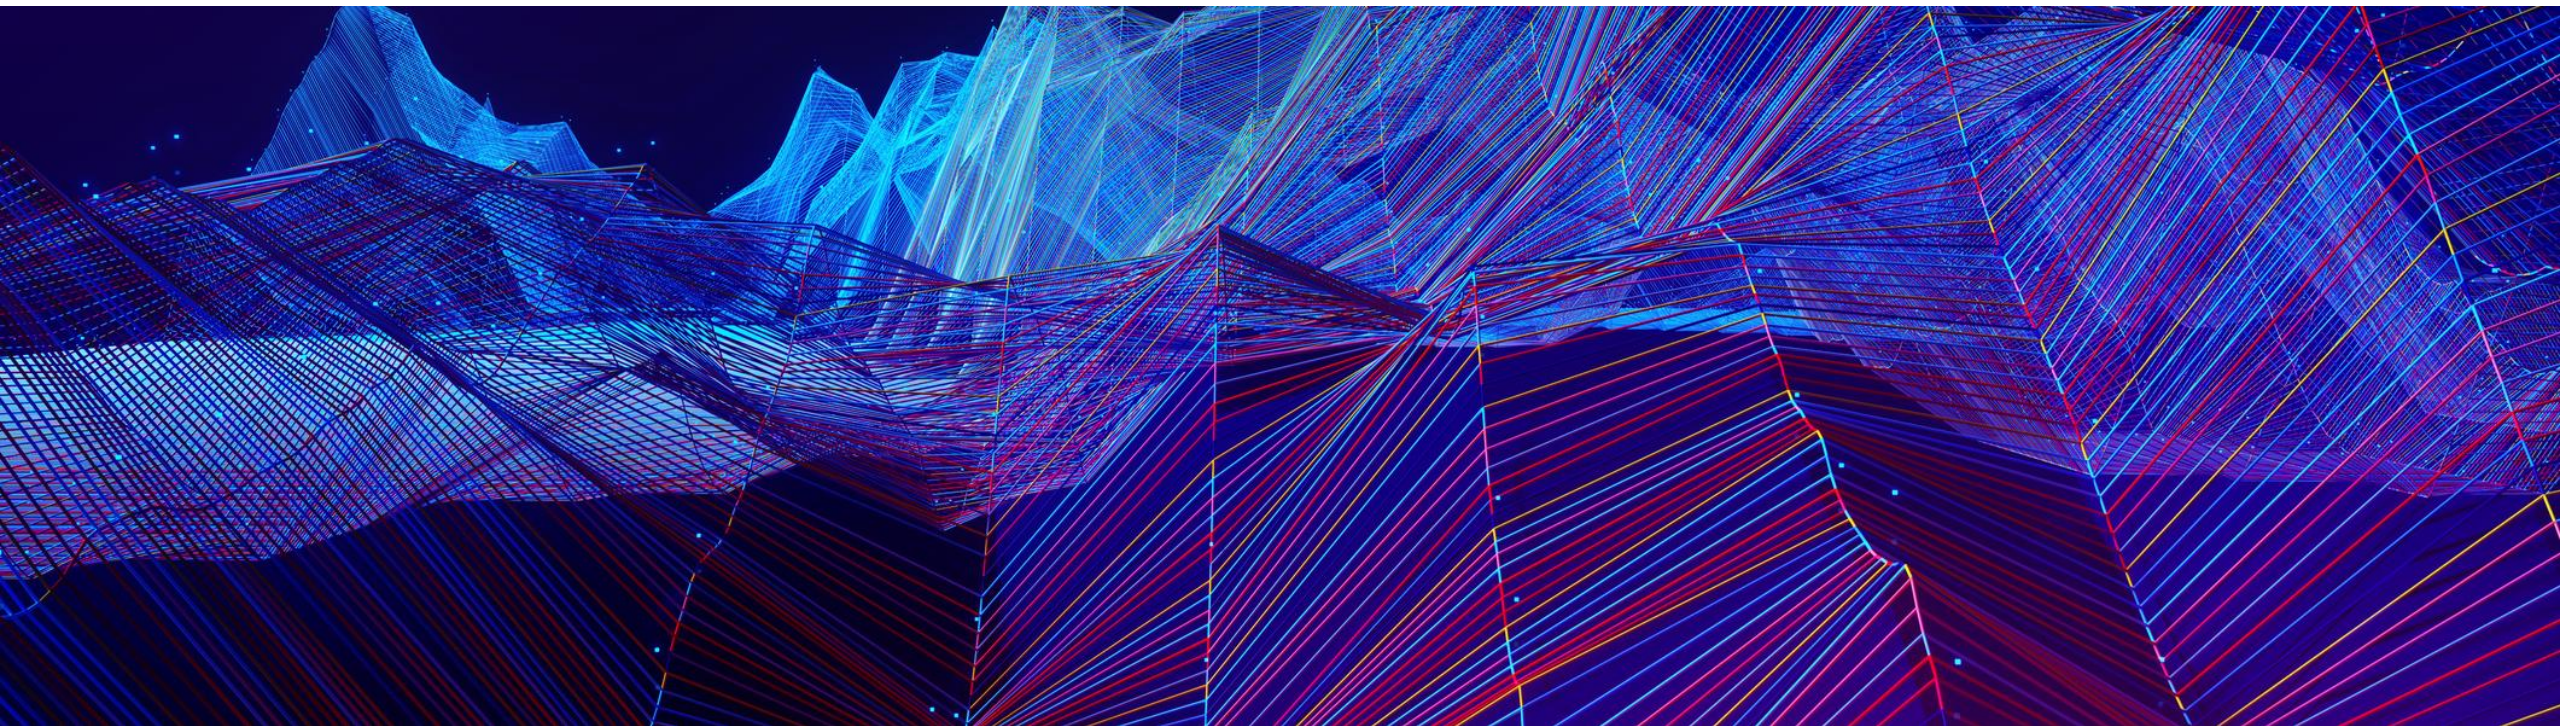

- Product extensibility enhancements for AI services adoption by SAP partners

### First release to come in 2027

- Further enhancements in feature packages based on partner and customer feedback
- Limited time of overlay with version 10 deliveries

# FP 2508 - Innovation highlights

# SAP Business One

## Web client recent delivery (FP 2508)

### Business processes

---

#### Extended usability support

- Attachment handling enhancements
- Multi language support

#### Extended business scope coverage

- Finance – Journal Vouchers, Deposit and Exchange Rate Table
- Marketing Documents – Blanket Agreement, Recurring Transactions and Down Payments
- Import from Excel support

#### Business scope fine-tuning

- Extended setting and setup support
- Performance enhancements
- Marketing and inventory document enhancements

#### Analytics and Reporting

- KPI setup
- Initial phase of reporting framework

### Extensibility and integration

---

#### Web client user interface API (UI API)

- VSCode wizard enhancements : TypeScript
- Dialog View Enhancements
- Extend web client UI API control support
- Extend web client UI API Views support

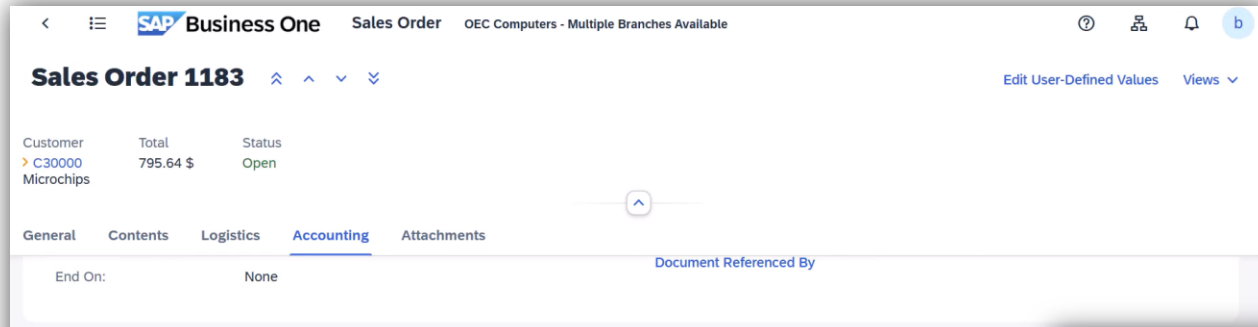

#### User-defined value (UDV)

- Support Master data
- Extend UDV formula APIs
- UDV Central management

#### Microsoft 365 Integration

- Enhanced mail support
- Enhanced attachments support

## What's coming next: Outlook on web client delivery for the next release (FP 2602)

### Business processes

---

#### Extended usability support

- Process Map initial delivery
- Enhanced notification framework
- Enhanced UI patterns

#### Extended business scope coverage

- Marketing Documents – ATP, Landed Cost, A/R correction invoices, A/P correction invoices, Pricing, Document generation wizard, Purchase procurement wizard and Payment wizard (view)
- Inventory - Pick & Pack, Inventory opening balances and Inventory posting
- Production - Production orders, Resources and MRP

#### Business scope fine-tuning

- Extended setting and setup support
- Performance enhancements
- Marketing and inventory document enhancements

#### Analytics and Reporting

- Initial delivery of crosstab reporting functionality
- B1 crystal report deployment
- Printing support

### Extensibility and integration

---

#### Web client user interface API (UI API)

- Webhooks initial delivery
- Extend web client UI API control support
- Extend web client UI API Views support

#### User-defined value (UDV)

- Extend object support coverage
- Support UDO/UDT

#### Microsoft 365 Integration

- Enhanced mail support
- Enhanced attachments support

This is the current state of planning and may be changed by SAP at any time.

# Planned innovations: Web client

Extend functional scope to cover end-to-end scenarios

## Feature

### Extended business logic coverage and user experience

- Sales and purchasing (including procurement wizards, document generation wizard)
- Service
- Financials (including fixed assets)
- Payments support (including bank reconciliation and payment wizard and bank statement processing)
- Inventory
- Projects
- Production (including material resource planning)
- Human resources
- Administration and setup

### Analytics, reporting, and printing

- Extended analytics
- Additional reporting content
- Design capabilities
- Support for printing

### Integration and extensibility

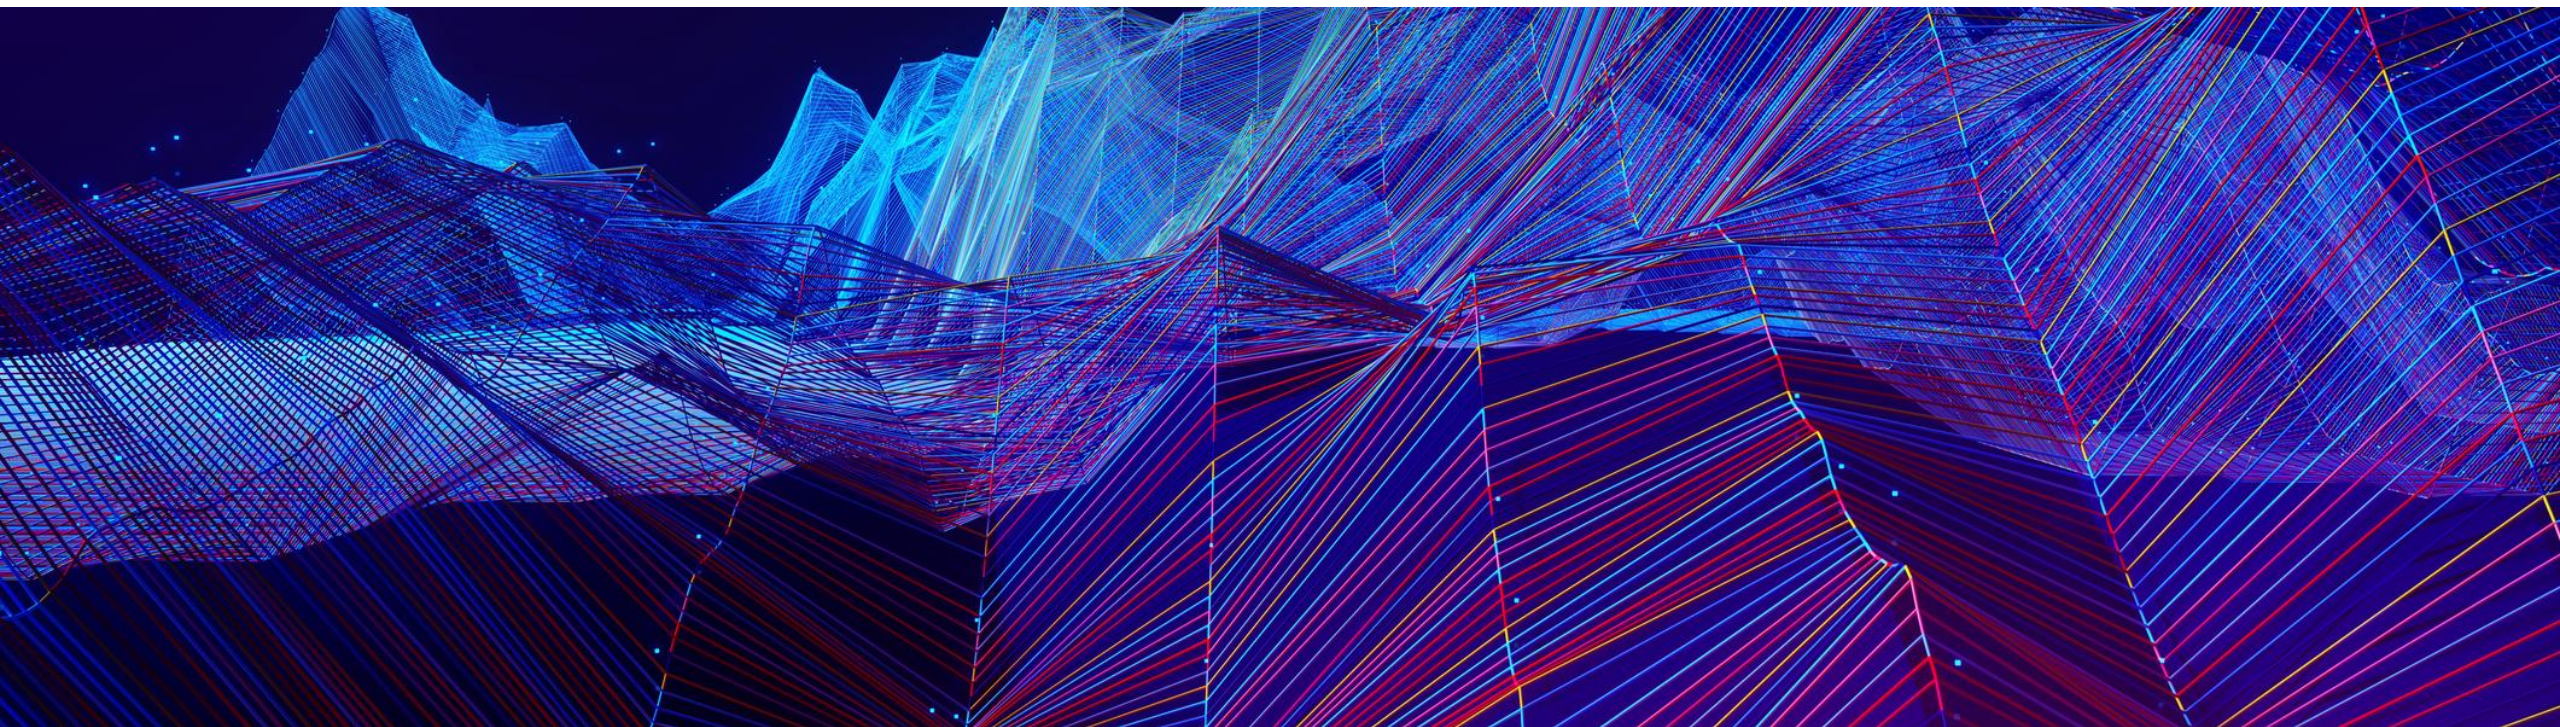

- Extensibility capabilities (such as UI API, user-defined values, web hooks)
- Microsoft 365 integration enhancements
- Outlook 365 integration enhancements
- A/P invoice creation automation using Document Information Extraction service

**SAP** Business One

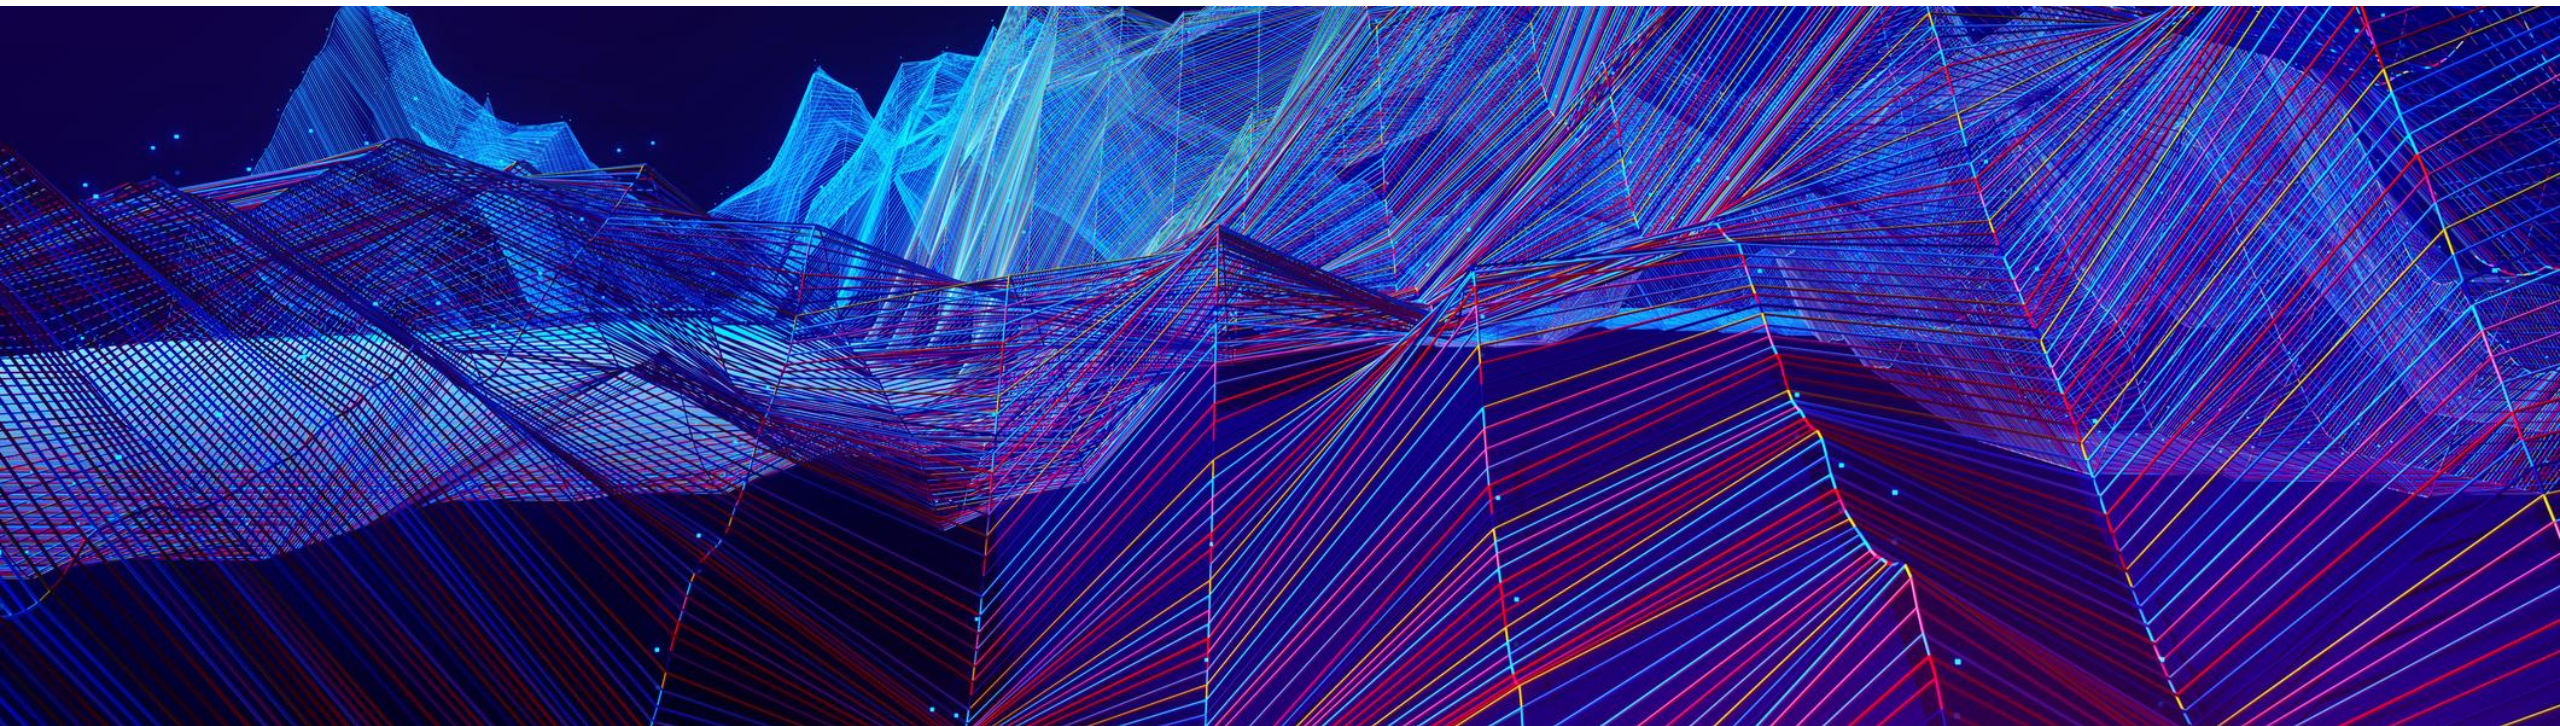

This is the current state of planning and may be changed by SAP at any time.

# Legal Changes: Look for Information – Part 1

## [SAP Regulatory Change Manager](#)

SAP RCM - central portal for legal compliance planning for all SAP products

The screenshot displays the SAP Regulatory Change Manager interface. The top navigation bar includes the SAP logo, 'Regulatory Change Manager', and user information 'GH'. Below the navigation, there are filters for 'News' (1 filter active), a search bar, and dropdown menus for 'Country/Region' and 'Product' (set to 'SAP Business One X'). A 'Go' button and 'Adapt Filters (1)' are also visible.

The main content area shows a table of regulatory changes:

Regulatory Change	Country/Region	Product
Mandatory B2B electronic invoicing	Spain (ES)	SAP Business One, <a href="#">5 More</a>
Mandatory B2B electronic invoicing 2026	France (FR)	SAP Business ByDesign, <a href="#">6 More</a>
Tax Reform - Alphanumeric CNPJ - Normative Instruction No. 2229, of October 15, 2024	Brazil (BR)	SAP SuccessFactors Employee Central Payroll, <a href="#">9 More</a>
Mandatory e-Invoicing through KSeF in Poland	Poland (PL)	SAP S/4HANA Cloud Private Edition, <a href="#">8 More</a>
Software certification (VERIFACTU systems)	Spain (ES)	SAP Document and Reporting Compliance - SAP S/4HANA Cloud Private Edition, <a href="#">8 More</a>
Tax Reform	Brazil (BR)	SAP ERP Central Component, <a href="#">6 More</a>
Mandatory domestic B2B electronic invoicing and electronic reporting in Belgium	Belgium (BE)	SAP Document and Reporting Compliance - SAP S/4HANA Cloud Public Edition, <a href="#">6 More</a>
Encrypt and communicate accounting SAF-T file	Portugal (PT)	SAP Business One, <a href="#">5 More</a>
New DIOT Report Version 2025	Mexico (MX)	SAP Business ByDesign, <a href="#">5 More</a>
GR 5616 - New procedure for legal document generation	Argentina (AR)	SAP Document and Reporting Compliance - SAP ERP, <a href="#">4 More</a>
Digital monitoring of goods movement (e-delivery phase A)	Greece (GR)	SAP S/4HANA, <a href="#">8 More</a>
Italy E-Invoice: New Technical Specifications - Version 1.9	Italy (IT)	SAP Business One
B2B electronic invoicing and electronic reporting	Germany (DE)	SAP Document and Reporting Compliance - SAP S/4HANA Cloud Private Edition, <a href="#">7 More</a>
SAF-T: Changes in accounting file JPK_KR (new JPK_PD aka JPK_CIT) as of 2025	Poland (PL)	SAP Document and Reporting Compliance - SAP S/4HANA, <a href="#">6 More</a>
New bookkeeping act	Denmark (DK)	SAP Business One, <a href="#">6 More</a>
Change to SAF-T Norway with a new file version 1.3	Norway (NO)	SAP S/4HANA, <a href="#">3 More</a>
Italy: Document with Different Exempt VAT	Italy (IT)	SAP Business One
eVAT - VAT Analytics and Declaration with M2M Communication	Hungary (HU)	SAP Document and Reporting Compliance - SAP S/4HANA Cloud Public Edition, <a href="#">5 More</a>
Mandatory Online Obligation eCH-0217	Switzerland (CH)	SAP Business One
InvoiceNow: invoice responses and purchase orders	Singapore (SG)	SAP Document and Reporting Compliance - SAP S/4HANA, <a href="#">3 More</a>

The detailed view on the right shows the 'Mandatory domestic B2B electronic invoicing and electronic reporting in Belgium' change. It includes a 'General Information' section with 'Country/Region: Belgium (BE)' and 'Effective Date: Jan 1, 2026'. The 'Expected Solution' section states: 'The following changes are planned for the Belgium localization of SAP Business One and SAP Business One, version for SAP HANA to address this legal requirement: The scope of this law is limited to e-invoicing and does not contain regulations for e-reporting. An electronic invoicing solution is already available in SAP Business One, for more information see SAP Note 2915144.' The 'Change Log' section provides updates from October 3, 2023, and the first half of 2024.

- You can now activate the Support user directly from System Landscape Directory (SLD) control center.

## Backup (HANA)

- Define the backup retention period for database instances and select multiple companies to schedule exports from the System Landscape Directory (SLD) control center.

## Log In

- Allow Windows Domain users to bypass SSO and choose how they log in to SAP Business One by updating a registry key.

## IAM

- Import IDP users via CSV file
- Maintain a password blocklist in Keycloak
- Check AD DS User Status
- Use a technical user when authenticating via the OIDC mechanism

# Lifecycle Management: the latest highlights and innovation in FP 2508

## #1 SBO Mailer Moving to Job Service Web Interface

The screenshot shows the 'Job Service Configuration' page for the Mailer Settings. The page is titled 'SAP Business One Job Service' and includes a 'Refresh Encryption' button. The configuration is organized into several sections:

- SMTP Server:** mail.sap.corp \*
- SMTP Port:** 587 \*
- Authentication Type:** Basic Authentication \*
- User Name:** guy.sujetzki@sap.com
- Password:** [Redacted]
- Language:** English (United States) \*
- Status:** ● RUNNING Stop

Additional options include:

- Anonymous
- Use TLS Encryption
- Right-to-Left Text
- Include Subject in Message Body

At the bottom right, there are two buttons: 'Test Connection' and 'Save'.

# Lifecycle Management: the latest highlights and innovation in FP 2508

## #2 New Authentication Method for SBO Mailer Available

The screenshot shows the 'SAP Business One Job Service' interface. At the top, there is a 'Job Service Configuration' header with a 'Refresh Encryption' button. Below this, there are three tabs: 'Mailer Settings' (selected), 'Alert and Scheduling Settings', and 'Task List'. The 'Mailer Settings' section contains the following fields and options:

- SMTP Server:** mail.sap.corp \*
- SMTP Port:** 587 \*
- Authentication Type:** OAuth 2.0 for Microsoft 365 \*
- User Name:** guy.sujetzki@sap.com
- Tenant Name:** sap.com
- Client ID:** (empty field)
- Client Secret:** (empty field)
- Language:** English (United States) \*
- Status:** ● RUNNING Stop

At the bottom of the settings section, there are four checkboxes:

- Anonymous
- Use TLS Encryption
- Right-to-Left Text
- Include Subject in Message Body

At the bottom right of the configuration area, there are two buttons: 'Test Connection' and 'Save'.

# Lifecycle Management: the latest highlights and innovation in FP 2508

## #3 Remember Sign-In Credentials

The screenshot shows the SAP System Landscape Directory (SLD) interface. The top navigation bar includes the SAP logo, 'System Landscape Directory', 'SLD Version: 1000310', 'Welcome, b1siteuser', and a 'Help' button with a power icon. Below the navigation bar is a menu with tabs for 'DB Instances and Companies', 'Logical Machines', 'Components', 'Services', 'Security' (which is highlighted), 'External Mapping', 'Global Settings', 'Audit Logs', 'Users', and 'Identity Providers'. The main content area is titled 'Authentication' and contains a section for 'Database Authentication' with a checkbox for 'Change Database User Password Every' followed by a text input field containing '30' and the word 'Days'. Below this are 'Update' and 'Reset' buttons. A horizontal line separates this from the 'Remember Sign-In Credentials' section, which has a blue highlight around its title. This section contains a checkbox for 'Remember user's IDP sign-in credentials for automatic sign-in to the SAP Business One client'. Below the checkbox is a warning icon and text: 'This functionality applies only to users authenticated by identity providers. When this setting is enabled, only one SAP Business One client can be opened at a time per user session.' At the bottom of this section are 'Update' and 'Reset' buttons.

## #5 OIDC related enhancements

Register OAuth Client

1 Client Information — 2 Redirect URIs — 3 Review page

### 2. Redirect URIs

The URIs we will accept as destinations when returning authentication responses (tokens) after successfully authenticating or signing out users. The redirect URI you send in the request to the login server should match the one listed here.

Redirect URI\*  
e.g. `https://example.com/auth`

Backchannel Logout URL  
e.g. `https://example.com/auth`

Previous Step Review

Register Identity Provider

Register your partner's identity provider if your extension is authenticated with it and needs to access SAP Business One.

Protocol: OpenID Connect (OIDC)

Name:\* *Input the identity provider's name.*

Discovery Endpoint:\* *Input the URL for OpenID configuration.*

Identity Claim Name:\* *Input the identity claim's name, e.g. email.*

Authorized Audiences: *Audiences receive tokens to verify apps. Separate multiple audiences with semicolons.*

Save Cancel

## #1 Login Authentication in RSP Studio

The screenshot shows the login window for SAP Business One Remote Support Platform Studio. The window title is "SAP Business One | Remote Support Platform Studio" with version "3.2 SP00 PL20". On the left, there is a small image of a woman in a light blue shirt. The main area contains two input fields: "User Name" and "Password". Below the fields are two buttons: "Log On" (highlighted in yellow) and "Forgot Password". At the bottom, there is a copyright notice: "Copyright © 2011-2025 SAP SE. All rights reserved." and the SAP logo.

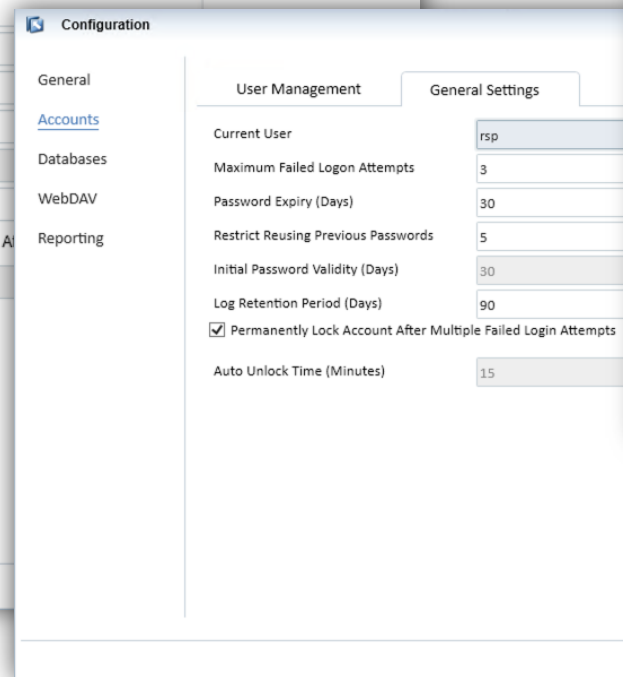

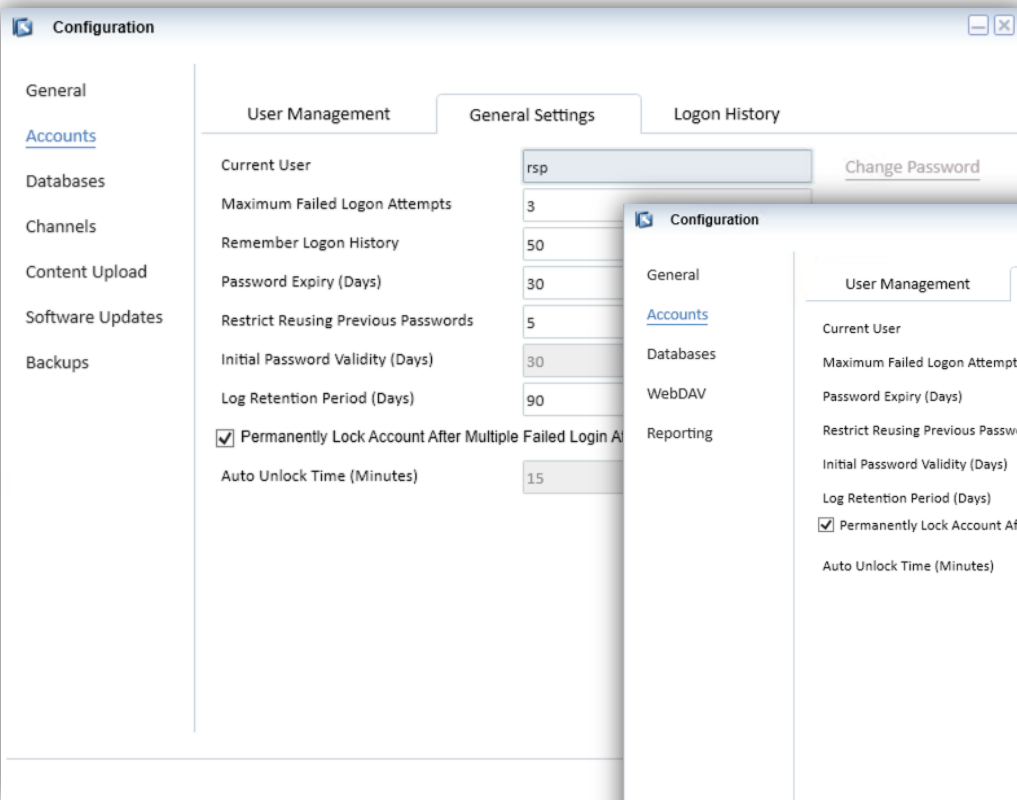

## #2 Task Result and Rating now included within RSP's email subject

[RSP\_Notification] SBODEMOUS [Task Result : Succeeded] Task report: System Status Report - Task Result Rating: **Poor**

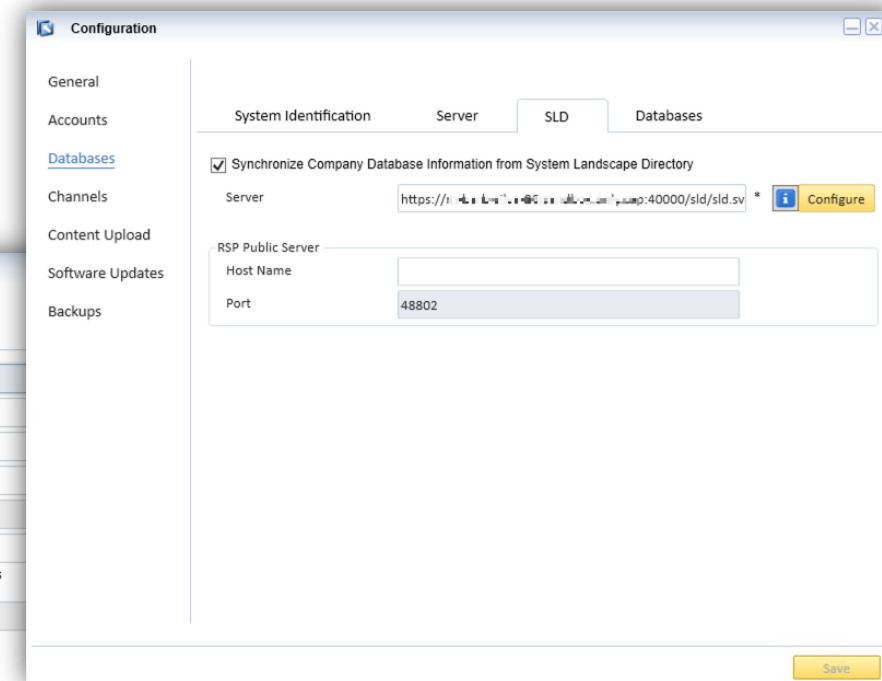

# Lifecycle Management: RSP PL 20

## #3 Security settings for User Management (RSP & RSP Studio)

## #4 Support OIDC authentication (starting with version FP 2508 onwards)

# Lifecycle Management: RSP PL 20

## #5 SAP Channel – Certificate for Tech user Authentication

The screenshot shows the 'Configuration' window with the 'SAP Channel' tab selected. The 'Enable SAP Channel' checkbox is checked. The 'Authentication Type' dropdown is set to 'Certificate', which is highlighted with a blue box. The 'Password' field also has 'Certificate' selected. A 'Test Connection' button is visible. The 'Approvals' section shows 'Request Manual Approval' for New Task, Task Updating, and Task Result. The Refresh Interval is set to 72 hours. The 'Allow Remote Management' checkbox is unchecked.

## #6 Backup RSP Database

The screenshot shows the 'Configuration' window with the 'Backup Settings' section. The 'Enable RSP Database Backups' checkbox is checked and circled in blue. Other backup settings include 'Enable RSP Backups (MSSQL)' and 'Enable RSP Backups (SAP HANA)', both checked. Fields for Network Folder, User Name, and Password are present, along with a 'Test Connection' button. A 'Save' button is at the bottom right.

1/3

## Tomcat Split

With the Tomcat split, most web-based SAP Business One services now run in separate Tomcat instances on their own ports. This improves process isolation, reduces single points of failure, and allows services

to be restarted independently, enhancing system stability and maintainability.

# SAP Partner Summit for EMEA & MEE

[Berlin, Nov 3+4](#)

SAP Partner Summit for EMEA and MEE

# Embracing the future. Evolving together.

Nov 3 – 4, 2025  
Berlin, Germany

## SAP Partner Summit for EMEA and MEE

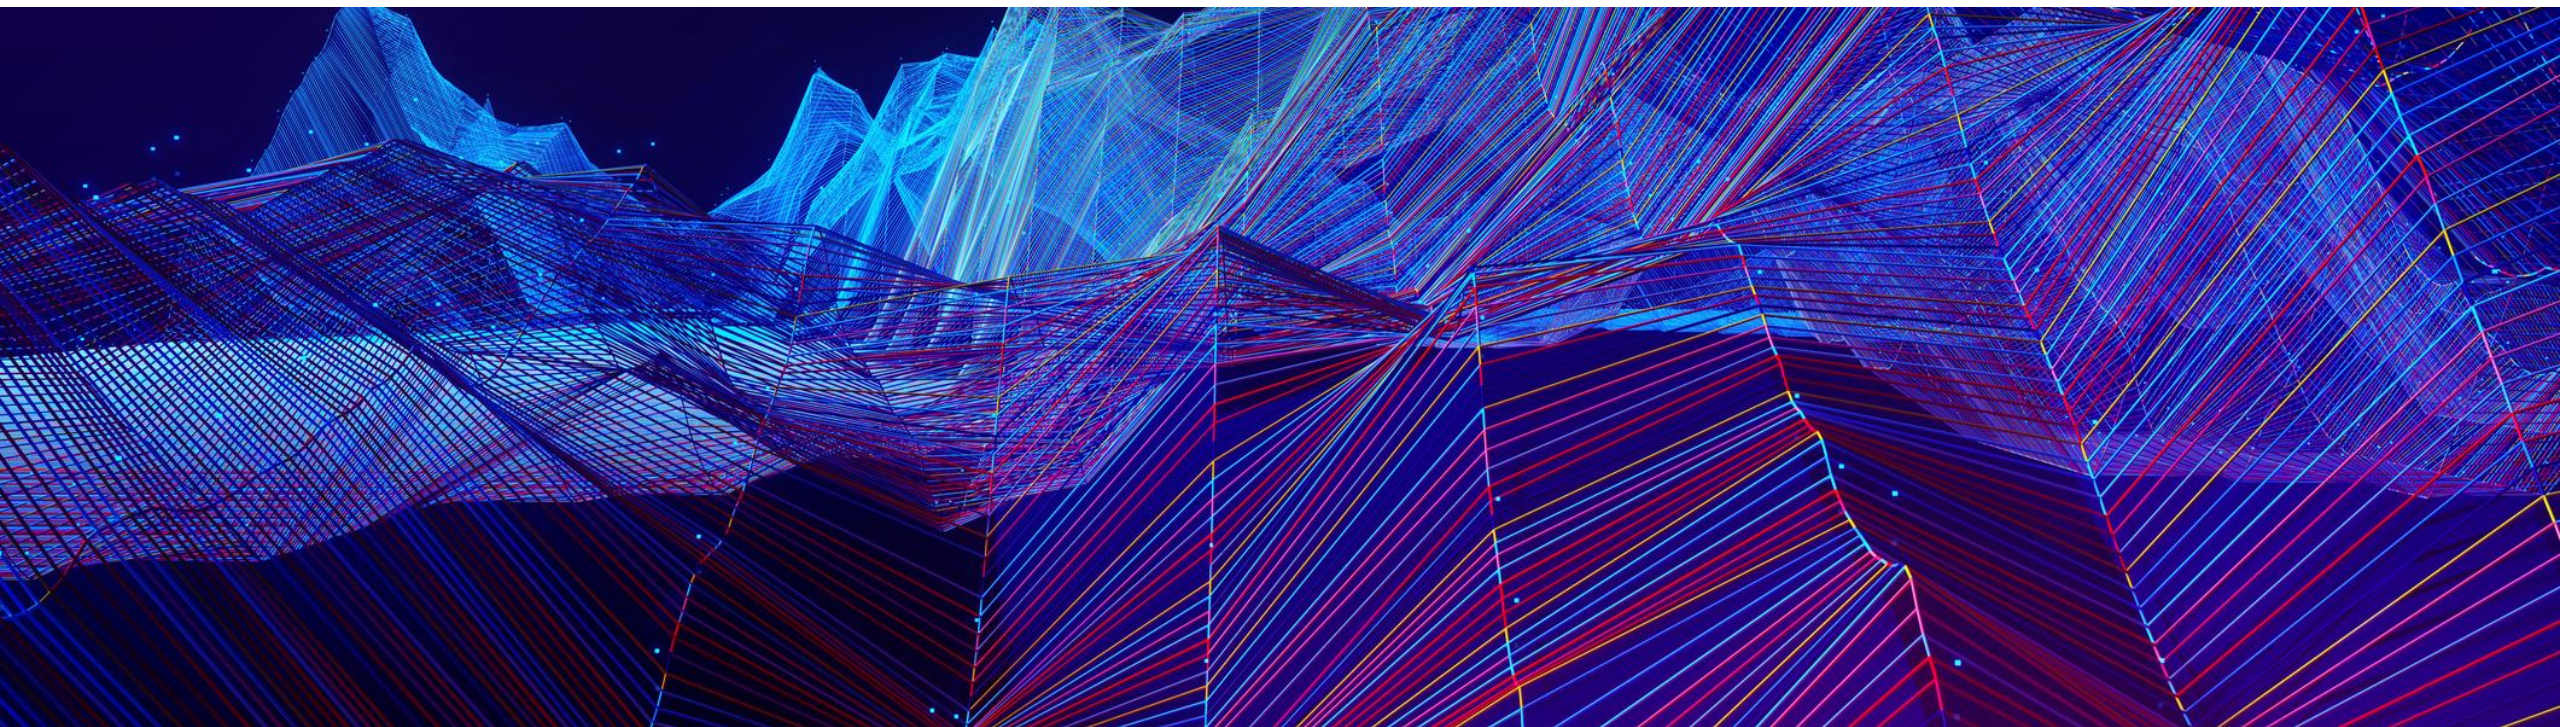

For the first time ever, partners from both EMEA and MEE will come together at scale – for a truly collaborative experience that reflects the way we want to move forward: as one: SAP + Partners.

Our business landscape is changing fast. The launch of the SAP Business Suite, SAP Business Data Cloud, and our AI-first strategy marks a major step forward. This is the moment to align, prepare, and lead – with the clarity and connection it takes to turn strategy into success. The summit brings the right people, insights and opportunities together to help you grow where it matters most.

The SAP Partner Summit is built for those ready to shape what's next:

**Embracing the future. Evolving together.**

# Key take-aways

# SAP Business One, Web client: Learning Journey

- Meet the new SAP Business One, Web Client public Learning Journey !
- Here is a direct link to the learning journey and the QR Code

<https://learning.sap.com/products/business-one>

# Key take-aways

- SAP Business One is a strategic solution for SAP with continuous innovation
- We are **accelerating the web client** development—2025 and 2026
- Continuity beyond Version 10 with **Version 11 to come in 2027**  
(SAP HANA + SQL, primary interface web client + maintaining desktop client)
- Get ready for the future of web client with your solutions and team
- Follow clean-core and embrace cloud in your extensions approach

## Call for action:

- **Adopt the latest Feature Package 2508** with new web client functions and apply security fixes

# Thank you.
